*CARTAGENA PROTOCOL ON BIOSAFETY*  
*DI PLATFORM CONVENTION ON BIOLOGICAL DIVERSITY***

---

Greetings from Malaysia.

20 years ago, the Cartagena Protocol on Biosafety (CPB) entered into force to be implemented. On this 20th anniversary, Malaysia would like to congratulate all stakeholders and the Secretariat for completing 20 years of this challenging journey.

Biosafety is precautionary, and its successful implementation is more clearly seen over time as awareness, competency, and the increasing importance of biosafety have been incorporated into local legislation, procedures, and guidelines.

In Malaysia, we are fully committed to continuing this biosafety journey with the Secretariat and other stakeholders and navigating biosafety to greater heights.

Once again, congratulations to all on the 20th anniversary of CPB.

Thank you.
